rimahboukarroum@gmail.com | +961 70 359 261 | Shouf, Lebanon

## Profile

Motivated and detail-oriented Computer communication Engineering student with strong foundations in networking, programming, and communication protocols. Skilled in problem-solving, teamwork, and adapting to new technologies. Seeking opportunities to apply academic knowledge in practical environments and contribute to innovative engineering solutions.

## Experience

### Ogero Telecom – Bir Hassan, Lebanon | 04/2021 – 07/2021

- Assisted in the installation, configuration, and maintenance of fiber optic and copper networks.
- Supported engineers in network troubleshooting and service restoration.
- Participated in field visits to monitor and maintain telecom infrastructure.
- Contributed to the configuration of modems, routers, and DSL services for customers.
- Documented technical procedures and service reports.
- Collaborated with technical teams to ensure smooth voice and data transmission.

## Education

### Bachelor of Communication Engineering

Lebanese International University (LIU), Beirut | 2019 – Present

## Projects

- **TX RX App:** LIU University - Analog Lab | Customizable FM radio signal transceiver application capable of receiving and transmitting FM radio signals.
- **AI Assistant Application:** Personal Project | PDF analysis application that uses embedded Llama AI model to analyze documents, provide descriptions, and answer user questions with references from the PDF content.
- **Self Defense Application:** DOT Mobile App Training | Mobile application developed as part of DOT NGO mobile application development training program.

## Skills

**Programming:** Java, C, C++, HTML, CSS, JavaScript, PHP

**Networking & Protocols:** TCP/IP, UDP, HTTP

**Problem-Solving:** Troubleshooting technical issues and developing effective solutions

**Teamwork & Collaboration:** Experience working in interdisciplinary teams

**Professionalism:** Ethical handling of sensitive information and adherence to industry standards

## Certificates

- DOT. NGO (20/11/2022): Mobile Application Development Certificate.
- DOT. NGO (10/02/2023): Robotics Certificate (Arduino)

## Languages

- **Arabic:** Native
- **English:** Proficient
